KIRILL BLIK

PRODUCT DESIGNER · UX/UI

kirillblik@gmail.com | +972-50-781-2551 | blik.design | linkedin.com/in/kirillblik

Product Designer with 2 years of commercial visual design experience in e-commerce and a background in digital marketing. I combine user-centered problem solving, visual design, and hands-on prototyping to turn complex challenges into clear digital experiences.

SELECTED PROJECTS

Leeway — UX/UI & Product Design Capstone, John Bryce *2026*

- Designed a mobile app for booking a security-screening time slot at Ben Gurion Airport, taking it solo from research to a Figma design system and a 12-screen working prototype in 4 languages.
- Interviews showed a planning problem, not a queue problem: 3 of 4 travelers arrived 2.5–3.5 hours early regardless of load. Replaced separate security and check-in slots with one booking decision: nine 20-minute windows built from the flight's departure time.
- Observed up to 7 people using the prototype and iterated: inline validation instead of an error screen, a 3-step first-visit walkthrough, non-Israeli passport support, and 4 languages, the change with the largest effect.

DeciBuy — Independent Product Design Concept *2026*

- Designed solo an iPhone-first app that weighs a price against spare money and payday, and answers before checkout: Buy, Wait for payday, or Not now. It never blocks a purchase; the final call stays with the user.
- Cut setup to a one-time set of ranges (income, rent, bills, payday), with no spending log or bank connection, to remove the effort and guilt that make people abandon budget trackers.
- Built a coded, working prototype in 6 languages with light and dark themes.

EXPERIENCE

Graphic Designer — KSP (E-commerce) *Apr 2025 – Oct 2026*

Graphics & Media Department

- Designed campaign visuals, banners, and landing pages for a high-traffic e-commerce platform serving tens of thousands of daily visitors.
- Translated brand and partner requirements into on-site experiences for L'Oréal, LEGO, Disney, Razer, Samsung, LG, Dreame, and Xiaomi, including branded landing pages across the KSP website.
- Worked across marketing touchpoints: on-site banners, Instagram campaigns, TikTok video, and affiliate email newsletters, adapting each campaign to its channel.

EDUCATION

John Bryce — UX/UI & Product Design Program *May 2026 – Sep 2026*

Western Galilee College — B.A., Management & Digital Marketing *Oct 2023 – Jul 2026*

Tiltan College — Graphic Design *Jun 2024 – Feb 2025*

SKILLS

Product & UX: Product Design, UX/UI Design, User Research, Interviews, Personas, Customer Journey Mapping, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing

UI & Visual: Figma (Auto Layout, Components, Design Systems), Responsive UI, Photoshop, Illustrator, InDesign, FigJam

Prototyping: HTML/CSS/JavaScript, AI-assisted prototyping (Claude, ChatGPT)
